It takes a team
Our health guides work closely with health care professionals, like nurses, health coaches and social workers, to provide personalized and consultative support.

They can help you:

- Connect with the right benefits and programs for your health care needs, including:
  - Cancer support for you, family members and caregivers before, during and after treatment
  - Behavioral health support if you or a family member are experiencing stress, depression and anxiety, or are dealing with drug and alcohol abuse or other personal issues
- Stay on top of your follow-up and preventive care with reminders and appointment-scheduling support.
- Save money on your prescription drugs. For instance, if you can switch from a brand-name drug to a lower-cost generic one, they’ll let you know.
- Compare costs for health care services, find in-network doctors and much more.
