1. Inspireyourpeople.com
Browse the website and see if there is anything of interest to you for personal inspiration/personal development or anything you would use for your team for team building or inspiration. Be prepared to share with the group at session.
2. Complete Page 16 of the Teaching outline – Follow-up Exercise – 6 questions. We will discuss as a group at session 2.
3. Read through pages 26 -33 starting with the WDEP System – we will be working through difficult conversations and it starts with ASKING vs. TELLING and asking the right questions to address the performance or behavior issue. Glance through these pages as they will become helpful to you as we work through practice conversations 😊

You DO NOT need to turn in anything prior to session. We will cover during the next session.
