#1: PPE Provider Charge

- Some dentists and healthcare providers are requesting patients pay a small fee to cover the cost of personal protective equipment (PPE) to protect themselves, staff and patients due to COVID-19.
- If they are participating providers with Anthem and Delta Dental, they are not allowed to charge our members. Anthem and Delta reimburses providers for PPE in accordance with their negotiated contracts and will deny these additional charges if submitted as a claim.
- Please advise participants to **NOT** pay the charge at the time of their visit.
